## PROFILE

I am a 24 years old industrial designer from Toronto, Canada (currently based in Ottawa) with 2 years of experience in different types of product design and visual design. I have worked in many locations around the world with different culture and language environment (English, French, and Chinese).

I am a team leader, risk taker, fast learner, and a workaholic. I have lead several teams on different startup projects which we were passionate to. I love working with different people and making new friends.

Besides design, I am a musician and love playing different musical instruments. I have a rock band in Ottawa and we perform in competitions and shows at our spare time.

## LANGUAGES

## EXPERIENCE

### Fashion Designer

Downstairs, Toronto | Summer 2016

Built and lead a team to design, manufacture, and sell a series of T-shirts that aimed at the top end luxury fashion market. We successfully sold over 500 T-shirts with 80 dollars selling price in the Chinese and Canadian market.

### Industrial Designer

Cyclone Lighting, Montreal | May 2016 - Sep 2016

Worked under high pressure as an industrial designer prime focusing on structure and appearance of the contemporary products in a Luminaire company. At the same time, I was also responsible for graphic designs for the company websites, brochures, products rendering and retouching. Have extensive management and multitasking ability.

### Industrial Designer

Meow Fund, Dalian | Feb 2016 - May 2016

Meow Fund was a startup public welfare project which I lead a team to start. It was a non-profitable project and our task is to design and build outdoor shelters in the shortest possible labour time using the most cost saving materials to help the stray cats.

### Industrial Designer

Ougu Tech, Dalian | Sep 2015 - Feb 2016

Working as a team leader at a design consultant company to design consumer electronics and household products for domestic and international customers. Able to manage the team to deliver under tight schedule and maintain excellent customer relationship.

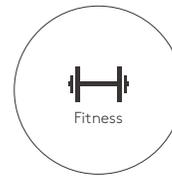

### UX/UI Designer

Shenzhen | Summer 2015

Founded a startup O2O App project with my team. Responsible for design the product framework and user interface, the company and product future planning, and pre-promotion planning.
